

Release Agents

Page 1 of 1

Release agent product testing has been done by the following two companies: 1) **Progressive Solutions Corporation** on their **Kleen-Kote** product and 2) **Nox-Crete Products Group** on their **Bio-Nox** product on our formliners. They have proven to be effective and non-reactive when used as per the form release manufacturer's directions.

Fitzgerald Formliners™ warrants our products to be of uniform quality within manufacturing specifications and will perform as represented, provided that the concrete construction practices used are in accordance with the manufacturer's recommendations and installation instructions. Manufacturer assumes no responsibility for the adhesion of elastomeric liners to plywood when this work is performed in the field. Manufacturer assumes no responsibility for any damage to formliners due to the improper use or application of a form release agent. Seller's and manufacturer's obligation under this warranty shall be limited to refunding the purchase price or replacing that portion of the material proven to be defective.

Fitzgerald Formliners makes no other warranty expressed or implied, including, without limitation, warranties of fitness or merchantability, with respect to its products.
